

## Volunteer Opportunities

*Volunteer opportunities are contingent upon the capacity and specific needs of the individual committees.*

### **Community Involvement Committee**

The CCYPs Community Involvement Committee connects young professionals to civic engagement opportunities within the broader community. The committee helps to raise awareness around local nonprofit chamber members that young professionals can support through volunteering and other contributions.

### **Communications Committee**

The CCYPs Communications Committee works with the Charlotte Chamber communications team to ensure our news and events are effectively promoted to young professionals and the chamber's larger membership. The committee manages a social media calendar and curates online content. Young Professionals who blog on LinkedIn or other platforms are welcome to submit their posts for consideration if the content is relevant to our audience.

### **Public Policy Committee**

The CCYPs Public Policy Committee represents our young professional membership on all chamber public policy committees through an ambassadorship program. The committee ensures that young professionals across Charlotte have an opportunity to influence decisions related to aviation, land use and transportation, legislative agenda, workforce development and education, and business and workplace topics.

### **Member Engagement Committee**

The CCYPs Member Engagement Committee helps to place interested young professional chamber members on one or more CCYPs committees. Co-Chairs and committee members match members based on their interests, strengths, and overall fit with committees that have volunteer needs at the time of inquiry.

### **CCYPs Champions**

CCYPs Champions serve as advocates for Charlotte Chamber Young Professionals programs and events within their organizations and respective networks. You will share CCYPs emails and social media updates with your young professional co-workers, friends and peers and help them to have a great experience at our luncheons and after-hours mixers by introducing them to CCYPs board members, fellow champions and other YPs in attendance.
